

## Federal Funding

Below is a list of local projects that will help grow Connecticut's economy, create jobs and protect our constituents. President Barack Obama and Congressional Democrats are committed to providing our citizens with a transparent and honest approach to federal funding requests. On these pages you will find descriptions of the programs this office has requested funding for on behalf of constituents and our local community. The economy is our first priority. These requests emphasize preparing our students and citizens for the jobs of the future and keeping those opportunities here in Connecticut.
